ABOUT ME

I am an optimistic young developer that loves the outdoors and enjoys a hike and a good mountain bike session. I am super passionate and a hard worker

CARL DE WITT
DEVELOPER, CODER, UX/UI

OBJECTIVE

Effective Student committed to learning, developing skills in (front, backend) and team contribution. Self-directed and energetic with superior performance any environment working independently and collaborating with others on group projects

EXPERIENCE

AMICIS HEALT

(2022-current)
I am currently part time working for Amicus Health and I am the UX/UI designer for them. I have created their logo for them and am part of the process of making the packaging for the medicine.

RETRO RABIT

(2022-2022)
I went for a jump session at Retro Rabbit and learned how the industry work with regards to how developers interact with each other and also learned about how developers and designers communicate and build a project together
